

Prospect Qualification Sheet

Worksheet - Skill: prospecting - Difficulty: intermediate - Est. 12 min

Draft resource pending human editorial review - not yet professionally verified.

A scoring sheet that applies the same five criteria to every prospect - fit, trigger, need, timing, and reachable role - so you spend your energy on the best opportunities.

Learning objectives

- Score prospects against consistent criteria
- Compare opportunities fairly
- Disqualify weak fits quickly and kindly
- Explain why your top prospect is strongest

How to score

Rate each criterion 0-2 (0 = no, 1 = maybe, 2 = clear yes) using public information. Add the column for a simple total out of 10. Use the same rules for every prospect so the scores mean something.

Scoring grid

[illegible]

Worked example

Fit 2 (matches ICP), Trigger 2 (public driver-hiring post), Need 1 (likely but unconfirmed), Timing 1 (unknown), Role 2 (ops lead is reachable) = 8/10. A prospect scoring 3/10 goes to the bottom of the list, not the top.

Safe-practice note

Score on observable business criteria only - never on personal or protected characteristics. Qualification helps you focus and disqualify respectfully; it is not a reason to treat lower scores rudely.
